ABOUT ME

Always striving for every opportunity - I have great ideas and the energy and drive it takes to bring them to life.

Through an analysis of my strengths, I realized that I could combine my love for logic and desire to create in a holistic way as a developer always enthusiastically to turn a creative idea into a practical reality.

TECHNICAL SKILLS

- Ruby on Rails
- Java Script, Node.js, React, Redux
- SQLite and PostgreSQL
- Git and GitHub
- HTML and CSS
- Object Oriented Programming

TECHNICAL PROJECTS

Front Portfolio Website

Back Portfolio website focused on image-driven professionals (designers, photographers, etc) with a management area

- Demo
- Backend built on Ruby on Rails
 - Frontend built on React.js with Redux

GitHub Alien Sponck Party

Game Pong and blocks game where physics makes the game increasingly more difficult every time the ball hits the paddle

- Built game using the HTML5 framework Phaser 3
- Written in JavaScript, the game uses physics and animations

GitHub Study Buddies

Demo A website where people can create and join study groups

- Built entirely Ruby on Rails and used Bootstrap for the styling
